1. The following is an Examiner's Statement of Reasons for Allowance:

The amendment and response filed 07/18/2005 are considered and deemed persuasive over the previous rejection. search was conducted on the specific claimed features of a volume control circuitry for controlling volume incrementing and decrementing in a digital wavetable audio synthesizer that is providing a volume component including a memory having a first storage location configured to store a current value of the said volume component, and a second storage location configured to store a final value of the volume component or current and final values being stored in different storage locations or devices, a comparator coupled to the memory for periodically comparing the current value with the final value to determine if the current value is less than, greater than, or equal to the final value; and providing volume value increment and decrement according to the compared result as recited in various independent claims; but no prior art was found as appropriate to the applicant's claimed invention.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue

Application/Control Number: 09/352,659
